COURSE DESCRIPTION

This course gives students the opportunity to develop the skills, knowledge, and habits that will support them in their education and career/life planning. Students will learn about global work trends, and seek opportunities within the school and community to expand and strengthen their transferable skills and their ability to adapt to the changing world of work. On the basis of exploration, reflective practice, and decision-making processes, students will make connections between their skills, interests, and values and their postsecondary options, whether in apprenticeship training, college, community living, university, or the workplace. They will set goals and create a plan for their first postsecondary year. As part of their preparation for the future, they will learn about personal financial management – including the variety of saving and borrowing tools available to them and how to use them to their advantage – and develop a budget for their first year after secondary school.

Credit Value: 0.5

Prerequisite Courses: None

OVERALL CURRICULUM EXPECTATIONS

Strand A. Developing the Skills, Strategies, and Habits Needed to Succeed Throughout this course, students will:

A1. Skills, Strategies, and Habits That Contribute to Success - demonstrate an understanding

- of the skills, strategies, and habits that can contribute to success in the pursuit of educational and career/life opportunities and in the achievement of a healthy school/life/work balance.
- **A2. Decision-Making Strategies and Goal Setting** apply various decision-making strategies to help them set goals, reflecting on and documenting their goal-setting process.

Strand B. Exploring and Preparing for the World of Work

By the end of this course, students will:

- **B1. Exploring Work Trends and the Importance of Transferable** Skills demonstrate an understanding, based on research, of a variety of local and global trends related to work and employment, including the effect some of those trends have had on workers' rights and responsibilities and on the role of transferable skills in career development today.
- **B2.** Preparing for Future Opportunities develop a personal profile based on an exploration of their interests, values, skills, strengths, and needs, and examine the range of factors that can influence their future education and career/life opportunities.
- **B3.** Identifying Possible Destinations and Pathways taking their personal profile into account, explore, research, and identify a few postsecondary destinations of interest, whether in apprenticeship training, college, community living, university, or the workplace, and investigate the secondary school pathways that lead to those destinations.

Strand C. Planning and Financial Management to Help Meet Postsecondary Goals By the end of this course, students will:

C1. Creating a Postsecondary Plan - develop a plan for their first postsecondary year, whether in apprenticeship training, college, community living, university, or the workplace, and prepare a variety of materials for communicating their strengths and aspirations to prospective mentors, program administrators, employers, and/or investors.

C2. Budgeting and Financial Management - demonstrate an understanding of responsible management of financial resources and of services available to support their financial literacy as they prepare a budget for their first postsecondary year.

OUTLINE OF COURSE CONTENT

The course has been broken down and will be taught via individual units that will encompass the previously stated strands.

Unit	Unit Name	Topics Covered	Instructional	Overall
Number		_	Hours	Expectations
1	Discovering	Types of Intelligences;	19	A1, A2
	Your Strengths	Personality Types; Learning		
		Styles; Setting Personal Goals –		
		short /long term; Career		
		Interest Survey; Skills for		
		Success in School/Workplace.		
2	Discovering	Educational Opportunities	18	B1, B2, B3
	Pathways	University, College,		
		Apprenticeship; Career		
		Clusters; Work-Life Balance		
		and Benefits; Workplace		
		Safety,		
		Discrimination/Harassment;		
		Workplace Hazards; Health and		
		Safety at the Workplace for		
		Employees/Employers; Know		
		Your Rights.		
3	Post-Secondary	Individual Habits/Skills;	18	C1, C2
	Goals/Financial	Interviewing/Resume/Cover		
	Awareness	Letter; Post-Secondary Options;		
		Career/Education Pathways;		
		Job Searching; Planning and		
		Financial Management;		
		Budgeting.		

TOTAL INSTRUCTIONAL HOURS - 55

TEACHING/LEARNING STRATEGIES

Students will be involved in a variety of learning activities including presentations, debates, class discussion, internet/media research, and independent research on topics related to the course. Students will participate in activities by following instructions and giving it their best effort and will maximize achievement with basic learning strategies such as note-taking, studying, re-reading, asking questions, and participating in all class activities.

STRATEGIES FOR ASSESSMENT AND EVALUATION OF STUDENT ACHIEVEMENT

Assessment Policy

In keeping with the Ministry of Education's document, <u>Growing Success: Assessment, Evaluation, and Reporting in Ontario Schools, 2010,</u> this course will be presented to students with consideration of the overall and specific expectations established for the credit, the achievement chart in the appropriate curriculum policy document, and the guidelines for Assessment and Evaluation. Each course contains both content standards (the knowledge and skills a student is expected to demonstrate throughout the course) and performance standards (the quality of student learning as reflected by the student's work toward achieving these skills).

To support student learning and to ensure that the assessment and evaluation encourage and promote student achievement as much as possible, course evaluations will be designed with a mind to being:

- balanced and equitable, with clear instructions and criteria;
- reflective of the overall and specific expectations for the course;
- ongoing and varied, allowing students to demonstrate achievement throughout the year;
- ongoing descriptive feedback giving students indications of goals and strategies for improvement;
- supportive of student skills in assessing their own learning (for self-improvement, not for marks) so that they can set personal goals and strategies

Assessment Types

This course will contain all three types of assessment recommended by the Ministry of Education.

Assessment for learning where the teacher will gather information about student skill and understanding in order to plan teaching activities to maximize student achievement. In addition, the teacher will give feedback on work which is designed to help the student direct his efforts to particular skills or content so that he can improve his results. These assessments are generally not completed for marks, but rather for feedback, and include such things as checklists, student reflections, practice activities, and sample questions.

Assessment as learning where the student is asked to demonstrate progress in developing skills and understanding of content in a way which allows him to set goals, reflect on his work, and determine strategies for progress. These assessments may or may not be assessed for marks and include such things as small tests, quizzes, small writing assignments, brief presentations, and self and peer-assessed (not for marks) activities.

Assessment of learning where the student is asked to demonstrate that he has acquired the skills taught and has developed a strong understanding of the content and performance standards related to the topic. These assessments are done in preparation for moving forward to new content and performance standards or in completion of the course itself. These are assessed for marks and are used to record and report what has been learned; they include such things as unit tests, larger writing assignments, essays, projects, and exams.

Learning Skills

Student achievement also reflects a variety of specific learning skills, through which students complete course assessments. These learning skills are not assigned specific marks, but are rather indicated on the student report card using letters (E=excellent, G=good, S=satisfactory, N=needs improvement) in order to indicate which learning skills should receive increased endeavour by the student in order to improve his learning. They are behaviours considered essential and integral to student learning and to the evaluation of a student's achievement as he progresses through each course and grade. These learning skills and the accompanying descriptors reflecting a "Good" level of achievement are:

- Responsibility
- Organization
- Independent Work
- Collaboration
- Initiative
- Self-regulation

Assessment Structure

Student achievement is communicated formally to students and parents by means of the Provincial Report Card. The report card provides a record of the student's achievement of the curriculum expectations in the form of a percentage grade. The percentage grade represents the quality of the student's overall achievement of the expectations for the course and reflects the corresponding level of achievement as described in the achievement chart. A final grade is recorded, and a credit is granted and recorded if the student's grade is 50% or higher.

The final grade in this course is determined as follows:

Term Work*	70%
Portfolio (Summative)	20%
Visual (Summative)	10%
Final Grade	100%

^{*}Term work is based on evaluations conducted throughout the course. This portion of the grade will reflect the student's most consistent level of achievement throughout the course, although special consideration may be given to more recent evidence of achievement.

Achievement Chart Categories

There are four categories into which student evaluations are divided: Knowledge and Understanding, Thinking, Communication, and Application. This means that a student's evaluated work will contain marks in all, or some of these categories as indicated by the teacher and based on the teacher's professional judgement. Students are evaluated according to the criteria established for the course, not according to the achievement of other students. Achievement of a level 3 in these categories represents the provincial standard.

There are four levels of student achievement, Levels 1-4 (as well as the possibility that a student's work can be evaluated as below level 1). See the full achievement chart for Guidance and Career Studies Grade 10 in Appendix 1.

PROGRAM PLANNING CONSIDERATIONS

Outlined below are some policy considerations that are of particular importance to program planning for the Career Studies course. For more information about considerations for program planning, educators should refer to "Some Considerations for Program Planning" in The Ontario Curriculum, Grades 11 and 12: Cooperative Education, 2018.

Education and Career/Life Planning

The curriculum expectations in Career Studies provide opportunities for educators to relate classroom learning to the education and career/life planning policy outlined in *Creating Pathways to Success: An Education and Career/Life Planning Program for Ontario Schools – Policy and Program Requirements, Kindergarten to Grade 12, 2013.* This policy, which is designed to prepare students for success in school, work, and life, identifies the following goals for students in Kindergarten to Grade 12:

- ensure that all students develop the knowledge and skills they need to make informed education and career/life choices;
- provide classroom and school-wide opportunities for this learning; and
- engage parents and the broader community in the development, implementation, and evaluation of the program, to support students in their learning.

The intent of the program is to ensure that students leave secondary school with a clear plan for their initial postsecondary destination, whether in apprenticeship training, college, community living, university, or the workplace, and with confidence in their ability to implement, and revise or adapt, their plan throughout their lives as they and the world around them change.

The framework of the program is a four-step inquiry process based on four questions linked to four areas of learning: (1) Knowing Yourself – Who am I?; (2) Exploring Opportunities – What are my opportunities?; (3) Making Decisions and Setting Goals – Who do I want to become?; and (4) Achieving Goals and Making Transitions – What is my plan for achieving my goals?

Classroom teachers support students in education and career/life planning by providing them with learning opportunities, filtered through the lens of the four areas of learning, that allow them to apply subject-specific knowledge and skills; explore subject-related education and career/life options; and become competent, self-directed planners. Students reflect on and consolidate their learning in an Individual Pathways Plan (IPP), which typically contains: a record of their initial postsecondary destination, whether in apprenticeship training, college, community living, university, or the workplace, and of their other postsecondary goals or plans; a detailed plan for completing the courses and experiences required to achieve their goals; and strategies to support the plan, overcome obstacles and challenges, and access the resources and assistance needed. Students' work in the Career Studies course can inform the development of their IPP, and vice versa.

Experiential Learning in Career Studies

The Career Studies course helps prepare students for the world of work, supporting their exploration of different kinds of work in different fields as well as their development of transferable skills. Experiential learning opportunities help broaden students' knowledge of themselves and of career opportunities in a wide range of fields. Planned learning experiences in the community, including job shadowing and job twinning, field trips, work experience, and cooperative education, provide students with opportunities to see the relevance of their classroom learning in a work setting, make connections between school and work, and explore a career of interest as they plan

their pathway through secondary school and on to their postsecondary destination. Through experiential learning, students develop the skills and work habits required in the workplace and acquire a direct understanding of employer and workplace expectations. In addition, experiential learning helps students develop self-knowledge and awareness of opportunities – two areas of learning in the education and career/life planning program outlined in *Creating Pathways to Success: An Education and Career/Life Planning Program for Ontario Schools – Policy and Program Requirements, Kindergarten to Grade 12, 2013.*

<u>APPENDIX 1 – ACHIEVEMENT CHART</u>

Achievement Chart - Guidance and Career Education, Grades 9-12

Categories	50-59% (Level 1)	60–69% (Level 2)	70–79% (Level 3)	80-100% (Level 4)
Knowledge and Understa		wired in each course (knowledge), as	nd the comprehension of its meaning	and significance (understanding)
Knowledge of content	The student: - demonstrates limited	- demonstrates some	- demonstrates	- demonstrates
(e.g., terminology, vocabulary, information)	knowledge of content	knowledge of content	considerable knowl- edge of content	thorough knowledge of content
Understanding of content (e.g., theories, concepts, skills, processes)	 demonstrates limited understanding of content 	 demonstrates some understanding of content 	 demonstrates considerable under- standing of content 	 demonstrates thorough understand- ing of content
Thinking The use of critical a	nd creative thinking skills and/or	processes		
	The student:			
Use of planning skills (e.g., focusing research, identifying a problem, locating and gathering information, organizing an inquiry)	 uses planning skills with limited effectiveness 	uses planning skills with some effectiveness	 uses planning skills with considerable effectiveness 	 uses planning skills with a high degree of effectiveness
Use of processing skills (e.g., analysing, reflect- ing, integrating, synthe- sizing, evaluating, form- ing conclusions)	uses processing skills with limited effectiveness	 uses processing skills with some effectiveness 	 uses processing skills with considerable effectiveness 	 uses processing skills with a high degree of effectiveness
Use of critical/creative thinking processes (e.g., reading process, inquiry, decision making, research, problem solving)	 uses critical/creative thinking processes with limited effectiveness 	 uses critical/ creative thinking processes with some effectiveness 	 uses critical/creative thinking processes with considerable effectiveness 	 uses critical/creative thinking processes with a high degree of effectiveness
Communication The conve	ying of meaning through various J	orms		
	The student:			
Expression and organi- zation of ideas and infor- mation (e.g., clarity of expression, logical organization) in oral, visual, and written forms (e.g., interviews, presentations, port- folios, graphic organi- zers, posters, letters, résumés, personal pro- files, charts, reports, summaries)	expresses and organizes ideas and information with limited effectiveness	expresses and organizes ideas and information with some effectiveness	 expresses and organizes ideas and information with considerable effectiveness 	expresses and organizes ideas and information with a high degree of effectiveness

Categories	50–59% (Level 1)	60–69% (Level 2)	70-79% (Level 3)	80-100% (Level 4)
Communication (cont.)	(2211111)	,	(221212)	
	The student:			
Communication for dif- ferent audiences (e.g., peers, employers, adults) and purposes (e.g., to inform, to per- suade) in oral, visual, and written forms	 communicates for different audiences and purposes with limited effectiveness 	 communicates for different audiences and purposes with some effectiveness 	 communicates for different audiences and purposes with considerable effectiveness 	 communicates for different audiences and purposes with a high degree of effectiveness
Use of conventions (e.g., appropriate style and format for cover letters, applications, résumés, e-mails, journals, telephone calls) and of appropriate vocabulary and terminology in oral, visual, and written forms	 uses conventions, vocabulary, and terminology of the discipline with limited effectiveness 	 uses conventions, vocabulary, and terminology of the discipline with some effectiveness 	 uses conventions, vocabulary, and terminology of the discipline with considerable effectiveness 	 uses conventions, vocabulary, and terminology of the discipline with a high degree of effectiveness
Application The use of know	-	ns within and between various conte	radi	
Application of knowledge and skills (e.g., in the areas of personal man- agement, interpersonal relations, learning, tech- nology, goal setting, plan- ning) in familiar contexts	The student: - applies knowledge and skills in familiar contexts with limited effectiveness	applies knowledge and skills in familiar contexts with some effectiveness	applies knowledge and skills in familiar contexts with considerable effectiveness	applies knowledge and skills in familiar contexts with a high degree of effectiveness
Transfer of knowledge and skills (e.g., in the areas of personal man- agement, interpersonal relations, learning, tech- nology, goal setting, plan- ning) to new contexts	 transfers knowledge and skills to new contexts with limited effectiveness 	 transfers knowledge and skills to new contexts with some effectiveness 	 transfers knowledge and skills to new contexts with considerable effectiveness 	transfers knowledge and skills to new contexts with a high degree of effectiveness
Making connections within and between various contexts (e.g., within and between disciplines; between learning in school and learning in the workplace; between different jobs within a workplace)	 makes connections within and between various contexts with limited effectiveness 	makes connections within and between various contexts with some effectiveness	makes connections within and between various contexts with considerable effectiveness	makes connections within and between various contexts with a high degree of effectiveness

Note: A student whose achievement is below 50% at the end of a course will not obtain a credit for the course.

LEARNING SKILLS AND WORK HABITS IN GRADES 1 TO 12

APPENDIX 2 – LEARNING SKILLS & WORK HABITS

Learning Skills and Work Habits	Sample Behaviours
Responsibility	 The student: fulfils responsibilities and commitments within the learning environment; completes and submits class work, homework, and assignments according to agreed-upon timelines; takes responsibility for and manages own behaviour.
Organization	 The student: devises and follows a plan and process for completing work and tasks; establishes priorities and manages time to complete tasks and achieve goal: identifies, gathers, evaluates, and uses information, technology, and resource to complete tasks.
Independent Work	 The student: independently monitors, assesses, and revises plans to complete tasks and meet goals; uses class time appropriately to complete tasks; follows instructions with minimal supervision.
Collaboration	 The student: accepts various roles and an equitable share of work in a group; responds positively to the ideas, opinions, values, and traditions of others; builds healthy peer-to-peer relationships through personal and media-assiste interactions; works with others to resolve conflicts and build consensus to achieve group goals; shares information, resources, and expertise and promotes critical thinking to solve problems and make decisions.
Initiative	The student: Iooks for and acts on new ideas and opportunities for learning; demonstrates the capacity for innovation and a willingness to take risks; demonstrates curiosity and interest in learning; approaches new tasks with a positive attitude; recognizes and advocates appropriately for the rights of self and others.
Self-regulation	The student: sets own individual goals and monitors progress towards achieving them; seeks clarification or assistance when needed; assesses and reflects critically on own strengths, needs, and interests; identifies learning opportunities, choices, and strategies to meet personal needs and achieve goals; perseveres and makes an effort when responding to challenges.
